Catella SICAV - Catella Nordic Corporate Bond Flex - a sub-fund of Catella SICAV class RD (SEK)

ISIN:LU0989954127

Management Company: FundRock Management Company S.A.

Objectives and Investment Policy

The sub-fund aims to generate capital growth by mainly investing in fixed income or fixed income related instruments.

In order to achieve its objective, the sub-fund invests at least two third of its portfolio in fixed income or fixed income related instruments or in instruments issued by governments and their agencies, state and municipal entities, banks and companies that are domiciled or active in Sweden, Finland, Norway, Denmark and Iceland.

The sub-fund may invest in derivatives to achieve the sub-fund's investment objective or to mitigate risks.

The sub-fund may hold short position through the use of derivatives.

The sub-fund qualifies as an Article 8 product under SFDR (Sustainable Finance Disclosure Regulation) since its investment strategy contains broad environmental, social, and governance criteria ("ESG Goals"). The sub-fund aims to take environmental considerations and to ensure that the company does not act in any area included in Negative Screening (as outlined in the Prospectus). The Investment Manager integrates these aims into the sub-fund's investment strategy to better manage risk, generate sustainable long-term returns, and promote environmental

or social goals. The sub-fund focuses on portfolio companies not active in any area that the sub-fund includes in its negative screening. For further information on the Investment Manager's ESG policy, investment strategies and disclosures that describe the specific risks of investing in this sub-fund please consult <https://www.catella.com/en/sweden/catella-fonder/sustainability>.

The sub-fund is actively managed without reference to a benchmark. However, the sub-fund is managed in reference to OMRX T-Bill Index for the purpose of marketing and to calculate the performance fee as detailed further below in the Charges section.

The currency of the share class is SEK.

Under normal circumstances, you may sell your shares any day on which banks are open for business both in Luxembourg and Sweden.

These shares are distribution shares. Income and capital gains may be distributed.

Recommendation

This sub-fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Risk and Reward Profile

| | | | | | | |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
|---|---|---|---|---|---|---|

What does this synthetic risk and reward indicator mean?

The shares of class RD (SEK) are classified in category 3 because the value of the share may be subject to medium variations and consequently the risk of loss and the opportunity of gain may be moderate.

The risk category for this share class was calculated using historical data. The risk category may not be a reliable indicator of the share class's future risk profile. The risk category shown is not guaranteed and may change over time.

The seven-category scale is complex, for example 2 is not twice as risky as 1. The gap between 1 and 2 might not be the same as the gap between 5 and 6. A category 1 sub-fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited.

Which materially relevant risks are not adequately captured by the synthetic risk and reward indicator?

- Operational risk: the risk of loss resulting from e.g. system breakdowns, human errors or from external events.
- The sub-fund may use derivatives. Due to their structure, the risk associated with these investment instruments may have a larger impact on the value of the sub-fund, than buying the underlying stock or investment instrument directly.
- Counterparty risk: the risk that a counterpart does not fulfill its obligations to the sub-fund (e.g. not paying an agreed amount or not delivering securities as agreed).
- Credit risk: the sub-fund invests directly or indirectly in interest bearing instruments, for example bonds. If an issuer of such an instrument cannot pay interest or the nominal amount at maturity, the investment can lose some or all of its value.
- Sustainability risk: The broad ESG Goals of this sub-fund may lead the Investment Manager to invest in or exclude securities for non-financial reasons, irrespective of market opportunities in order to achieve the stated ESG Goals. The financial returns of this sub-fund may not be equivalent or surpass those of non-ESG financial products. Data constraint is a big challenge and there are limitations on the types of sustainability and ESG-related data currently provided to the market.

How can I get more information about the risks of the sub-fund?

Additional information concerning the risks of investment is indicated in the corresponding sections of the prospectus of the fund.

Charges

The charges you pay are used to cover the running costs of the sub-fund, including the costs of marketing and distribution of shares. These charges reduce the potential increase in value of an investment in this sub-fund.

Charges taken from the fund under certain specific conditions

| | |
|------------------------|---|
| Performance fee | 20% a year of any returns the fund achieves above the hurdle rate based on OMRX T-Bill Index with high water mark |
|------------------------|---|

The entry and exit charges shown correspond to a maximum percentage which might be deducted from your capital invested into the sub-fund. In some cases you might pay less. You may contact your financial advisor or intermediary to be informed on the actual entry and exit charges.

The conversion of some or all of the shares into shares of another sub-fund or another share class is free of charge.

The ongoing charges relate to the annual charges; they were calculated on 31.12.2021. The ongoing charges may vary from year to year.

The figure of the ongoing charges excludes:

- Performance fee
- Securities transaction charges, except for the charges related to the purchase and the sale of target funds.

The performance fee invoiced for the share class for the most recent business year amounted to 1.04%.

For further information concerning charges, please consult the heading "Fees and expenses" of the fund's prospectus.

Additional information concerning the performance fee is also available in the prospectus.

Performance fees may be charged even where the investment has suffered losses.

Past Performance

All charges and fees, except for the entry and exit charges, were taken into account.

The past performance is calculated in SEK.

Past performance is not a reliable indicator of future results.

This sub-fund was launched in 2010 and the share class in 2013.

The sub-fund does not aim to track the composition of its benchmark index.
